How to build a connection

This timetable contains only direct (through flight) services.
Connections can be constructed using the following guidelines:

- Select a flight from your nearest airport to one of the connecting cities listed below:
Hubs, these generally offer the highest flight frequencies.
Other connecting cities.
- Note the arrival time at the connecting city and allow enough time to make your connecting flights by adding the minimum connection time listed below.
- Select the most convenient flight for your onward journey.

Check-in times and rules

To make sure that you can depart with your flight on time, you need to be checked in on time. This means that you need to take the following into account:

- For a KLM flight to European destinations, check-in closes 40 minutes before departure; for a KLM flight to intercontinental destinations, check-in closes 60 minutes before departure (with the exception of Paramaribo).
- Check-in closing means that you must ensure that you are checked in and that you have a boarding pass before the indicated closing time for check-in. This means that you should leave sufficient time to find your way around the airport and account for possible long lines at the check-in desk.
- To facilitate a smooth, comfortable check-in, we recommend that you keep to the recommended check-in times as indicated. Depending on which airport you will be departing from, you will need to calculate between 2 and 4 hours.
- If you check in after the indicated check-in deadline, you run the risk of losing your reserved seat and therefore not being allowed to board. You will also lose any rights to “denied boarding” compensation.
- If you are waiting in line and expect that you will arrive too late to check in, please let one of the KLM employees know.
- For detailed information about check-in deadlines and recommended check-in times per departure airport, [**click here**](#).
